

Agate

Geological patterns are the rock stars of today's design. As the name suggests, the Agate glass series is evocative of the semi-precious stone found in volcanic formations. Agate's colorful, handcrafted banding visually combines the solidarity of stone, the translucency of air, and the fluidity of water.

NOTES

Since variations are common in artistic glass tile, we recommend final selection be made from an actual tile mock-up. To achieve optimal results in shading, layout and design, tile should be randomly selected from multiple boxes during installation. We recommend a minimum of 10% overage on all orders. Please take care when grouting and protect surface from abrasion. **Installation constitutes acceptance.** We advise retaining control samples to aid in color matching if additional material is required (match not guaranteed).

MAINTENANCE

A routine cleaning of **Agate** tile can be done with a light duty non-abrasive, close to neutral pH detergent cleaner.

* Acceptable for use near open flame or heat source; However it is **NOT** considered 'Fire Glass'.

** **Size and Pattern Limitations:** 1/2 x 4", 1 x 4", 1-1/4 x 5", 2x6", Dash, Taiko, Yumi, and Zing 1 x 4" are **NOT** recommended for use or installation in a submerged application such as a pool/spa or steam shower floors.

FLOOR APPLICATION DEFINITIONS:
