Lunada Bay Tile is pleased to expand its partnership with Tommy Bahama® in creating Kapa, a captivating collection of handcrafted concrete tiles.

Reinterpreting Tommy Bahama's most iconic textile prints, Kapa architectural concrete tiles are inspired by elements of the exotic: sumptuous tropical fabrics, lush palm fronds, and waves lapping along a quiet shoreline. The embossed relief surfaces spark vacation daydreams and sanguine memories. Handcrafted in California, the dimensional surfaces add subtle, luxe texture to walls and coordinate with Tommy Bahama and Lunada Bay Tile glass collections.
